Stéphanie Dorval

Designing digital products for 5 years, working close to users and engineers. Research-driven decisions are at the core of my work, and I use AI tools actively.

French Native

English Fluent

Interests

Design events
Config 2026 (San Francisco), Flupa UX days 2022 (Paris), Web2Day 2022-2023 (Nantes)

Travel and exploration of cultures, sailing, baking, painting

Education

Social design Master's degree
L'École de design Nantes Atlantique, Graduated in 2023

UX/UI design Bachelor's degree
L'École de design Nantes Atlantique, Graduated in 2021

Work experience

Dec 2023 - Present • Copenhagen, Denmark

Experience Designer • EDL
- Leading end-to-end UX for B2B SaaS platforms across proptech, supply chain, cloud license management and fintech.
- Conducting user research across the full process: interviews, usability testing, and synthesis.
- Translating complex workflows into usable interfaces, building design systems at scale, and leading accessibility across products.
- Integrating AI tools into the design workflow for prototyping, research synthesis, and front-end iteration.
- Mentoring design interns.

Jul 2022 - Oct 2023 • Nantes, France

Product Designer • Datapix
- Designed platforms and mobile apps for B2B and B2C clients.
- Delivered no-code builds (Glide, Webflow, Dorik), bridging design and implementation.
- Designed for multiple user types across multi-platform products (web, mobile, desktop).
- Managed client relationships and collaborated with PMs on project briefs

Aug 2021 - Jun 2022 • Nantes, France

Product Designer • Lumiplan
Lumiplan specialises in real-time passenger information systems for transport and cities (270+ employees).
- Designed interfaces for a B2B product and multiple B2C mobile apps.
- Built a design system from the ground up.
- Conducted user research and worked daily with product owners and developers in an agile setup.

Dec 2020 - Mar 2021 • Rezé, France

UX Designer intern • AlloVoisins
AlloVoisins is a French marketplace connecting locals for services and equipment rental (4.5M+ members).
- Audited existing user flows and drove iterative improvements.
- Ran heuristic evaluations, designed personas and user flows from customer interviews, and validated wireframes through user testing.

Additional experience

UX strategies workshop for startups
Since 2024, I facilitate workshops for startups on UX design strategies, covering how to structure early-stage UX work, build design systems that scale, and make design decisions that hold up as a product grows.

Podcast guest for Focus State
I appeared as a guest on Focus State, EDL's podcast about design and product. Covered topics including emotional design, using AI as a design tool, and when design should lead strategy.
