Work experience

Product designer apprentice • July 2022 to now
Datapix • Nantes, France
Designing websites and mobile applications for clients in diverse industries (B2B and B2C), including conducting design research, maintaining client relationships, developing using No-code, and collaborating with project managers on design brief.

UX-UI designer apprentice • August 2021 to June 2022
Lumiplan • Nantes, France
Designed interfaces for a B2B SaaS software and multiple B2C mobile applications. Developed a design system. Conducted user research and gathered requirements. Collaborated daily with product owners and developers.

UX designer intern • December 2020 to March 2021
AlloVoisins • Rezé, France
Audited existing user flows and developed user tests. Collaborated with various teams within the company through iterations. Designed personas and user flows. Conducted customer interviews to gather user requirements. Created wireframes.

UX-UI designer Freelance • Since October 2020
Freelance • France
Completed short-term projects in UX/UI design and graphics. Designed logos and graphic standards, created interfaces (wireframes, mockups, animations). Produced infographics.

Education

Social design Master's degree • September 2021 to September 2023
L'École de design Nantes Atlantique • Nantes, France
Specializing in service design, global design, and user-centered design. Participated in seminars focusing on social, health and environmental topics.

UX/UI design Bachelor's degree • September 2018 to June 2021
L'École de design Nantes Atlantique • Nantes, France
Received training in web standards, interface ergonomics, user research, creative coding, and web composition.

Baccalaureate in science engineering (equivalent to A-Level) • 2018
Lycée Le Likès • Quimper, France
Received A-Level diploma in Engineering Science with a specialization in Computer Science and Digital Sciences.

Additional experience

Workshops / 9 one-week workshops, between 2019 et 2022
L'École de design Nantes Atlantique • Nantes, France
• Research : conducted user interviews and field research on the topic of culture in prison.
• Design sprint : designed a website prototype using the design sprint method.
• Creative coding : engaged in creative coding and received introductory training in video mapping using Processing.

Breizh Hackathon No-Code & Solidaire / 3 days, 2022
Contournement • Lorient, France
Participated in a 3-day no-code hackathon focused on a social project. Managed the project and collaborated with a team. Provided artistic direction.
